

### Ladder to Roof Tie Down Straps

Helps keep ladder from sliding side to side when leaning ladder against a roof or gutter. Attaches to roof with keyhole plates that hook over nail or screw head.

Solid zinc cam buckles and rugged polyester webbing for quick, secure tightening. Helps prevent marring of gutters and/or roof edges. Sold in pairs in retail packaging.

- Model number: L2R
- Polyester webbing
- Heavy duty, corrosion resistant hardware
- Easy to use
- Minimizes side-to-side slippage
- Solid zinc cam buckles
- Works with most roofing materials
- Helps prevent marring of gutters & roof edges
- Works with common nails or screws

### Ladder Guard

Helps deter children and others from climbing unattended ladders. Hook and loop strips securely sewn into the vinyl provide easy attachment onto most ladders. Each guard comes with bold black print on safety yellow, saying... WARNING! KEEP OFF!

- Attaches/Detaches Quickly with Hook and Loop Strips
- Waterproof, Laminated Vinyl
- Heavy Duty (18 oz.) Material
- Sun & Water Resistant—UV Resistant
- Rolls Up for Easy Storage
- Dimensions: 12" wide x 6' in length
- Custom Printing Available

LG-1210: Ladder Guard in clear poly bag

### Umbrella (Non-Conductive)

Our revolutionary, super heavy duty umbrellas are made without one scrap of metal. All materials used are non-conductive, high strength plastics and polymers for the utmost in safety around wires and poles. Made with a cover of UV treated, laminated vinyl. Umbrella pole is 48" in length. Extender pole and nylon carrying case are available as accessories.

- UV Treated, Waterproof, Laminated Vinyl Top—Safety Yellow
- Non-Conductive, High Strength Materials
- Tested to be Safe up to 20k VAC
- Leather Reinforced for Strength & Durability
- Folds to a Compact Size for Easy Storage
- Super Heavy Duty Construction
- Extender Pole (48") for Lengthening Pole up to 96"—optional
- Carrying Case is Water Resistant, Rip-Stop, Nylon—optional

1. **UMB-84:** Non-Conductive Umbrella (84 inches in diameter) with built-in 48 inch pole
2. **UMB-EXP:** Extender Pole (48 inches in length). Enables pole adjustments from 48" up to 96".
3. **UMB-CC:** Carrying Case for Umbrella. Holds Umbrella and Extender Pole
4. **UMB-84-CK:** 84" Umbrella, Extender Pole and Carrying Case
5. **UMB-CP-1:** Includes 1 Keylock adjustable Umbrella clamp, 1 Keylock base unit, hardware kit and installation instructions.
